

## **HEAVY DUTY MECHANIC (Plymouth)**

Dick Scott Chrysler Dodge Jeep Ram has an opening for an experienced heavy duty transmission mechanic. As a Technician (Automotive Mechanic) you will quickly and efficiently perform vehicle maintenance and identify the cause of breakdowns and repair them using the most optimal solutions. State of Michigan certification is REQUIRED for this position. We will pay top dollar for our ideal candidate!

### Job Responsibilities:

- Perform vehicle inspections, maintenance, repairs, and document repairs
- Communicate with service advisor when additional repairs are needed or when repairs cannot be completed in the scheduled time period
- Inspect and test-drive new vehicles to ensure that all features function properly
- Install accessories on new vehicles as specified by the customer or dealer
- Work alongside skilled technicians to learn how to perform quality vehicle service maintenance and repairs

### Job Requirements:

As an Automotive Technician (Automotive Mechanic), you will be experienced and aware of the latest automotive technologies and be a persistent problem solver.

We have determined some factors that may enable your success as an Automotive Technician:

- Must possess 2 years of automotive maintenance experience
- Must be Team oriented, flexible and focused on maintaining a high level of customer service
- Preference given to Chrysler Level 3 technicians
- Must have a valid driver's license & good driving record
- Must have State of Michigan Certification to be considered

Qualified candidates with State of Michigan Certification should forward their resumes in confidence via email to [Apply@DickScott.com](mailto:Apply@DickScott.com) or apply in person to the Service Manager.
